Overhead Sharing Plan

I. Designation of a grant as an AMSEC grant

A grant will be deemed an AMSEC grant if two or more AMSEC members are PI or co-PIs, and all PI/co-PI’s agree that it should be so designated and the director of AMSEC approves.

If one or more departments objects to a grant being designated an AMSEC grant, the objecting department(s) may make an appeal to the Dean of the College of Sciences and Technology to have the AMSEC designation voided. If such an objection is made, the objecting department chair and director of AMSEC will each present their case to the dean who will make the final determination.

II. Distribution of Facilities and Administrative Costs for AMSEC Grants.

The portion of Facilities & Administrative Costs (F&A) redistributed to the college will be distributed as follows:

25% retained by the college

37.5% distributed to the college

37.5% distributed to AMSEC

37.5% distributed to the departments of the named investigators on the grant, the amounts to be allocated to each department to be determined by the college.

III. Grant Administration

For AMSEC grants AMSEC will bear primary responsibility for those aspects of grant administration traditionally handled by departments.
